Objective

Results-driven Mobile and Frontend Developer with expertise in React, React Native, JavaScript and Typescript. Passionate about creating seamless, visually stunning digital experiences. I bring a detail-oriented approach to crafting innovative web and mobile applications that drive user engagement. Let's build something amazing together.

Education

Institute of management
and technology (I.M.T)
Enugu, Nigeria.
Chemical Engineering.
Distinction.

PROJECTS

SHOPINU

February 2025 – April 2025

Shopinu revolutionizes online shopping with its seamless e-commerce app. Customers can browse products effortlessly, manage orders, and track deliveries in real-time. Features like wishlist, cart management, and tailored recommendations create a personalized experience. Shopinu's robust platform enables businesses to showcase products, manage inventory, and process transactions securely. With Firebase integration, users enjoy secure login, registration, and profile management.

JavaScript.
TypeScript.
React.
React Native.
Expo.
Redux.
Redux-Toolkit.
Zustand.
Recoil.
Mongodb.
Firebase.
Express.
Tailwind.
Material UI.
Unit Testing (Jest).

End to end testing
(Detox).
Nodejs.
Git.
GitHub.
Fast learner.
Problem solver.
Good collaborator.
Good communicator.
Strong analytical skills.

Inupost is a dynamic social media app that empowers users to create, share, and engage with content. Users can create, edit, and update posts while interacting with others through likes and comments. It incorporates the feature of adding photos to posts, making the experience more visual. Built with MongoDB and Expressjs, the app delivers a scalable and efficient backend solution. With a robust and intuitive design, Inupost provides a seamless experience for both users and administrators.

TRACKSPEND

March 2023 – May 2023

Trackspend is a user-friendly budget tracker that helps you manage your finances effortlessly. Record your expenses and incomes with details like amount, category, and date. The app automatically calculates your financial balance, showing if you're running a surplus or deficit. Visualize your spending and income patterns through detailed pie charts, with each category represented proportionally. Receive notifications for every transaction update. With Trackspend, gain clarity on your financial situation and make informed decisions. Take control of your money and stay on top of your finances with this powerful tool.
